ABOUT ME

Full-stack developer and founder building ZaliczTo.PL, a mobile learning app for students. 1.5+ years of experience with Java, Spring Boot, React Native, and Expo, focused on engaging, scalable software with clean UI/UX.

EXPERIENCE

Full Stack Engineer

08/2025 – Present, Warsaw, Poland

ZaliczTo.PL | Self-employed

- Building a cross-platform mobile learning app for Polish students with React Native and Expo.
- Designing UI/UX: intuitive user flows, animations, sounds, and reusable components.
- Developing scalable backend services with Spring Boot, MongoDB, Redis, and REST APIs.
- Parsing thousands of content pages and pre-processing them ahead of time for LLM queries.
- Building an AI agent that generates personalized study materials from the processed data.

Full Stack Developer

12/2024 – 02/2025

MCFight.PL | Contract, Remote

- Created a full-stack web application using Next.js and MongoDB.
- Implemented payment system using CashBill API.
- Built leaderboard system using cache-aside pattern with Redis.
